

# Marcin Michalik

Senior Software Developer — Full Stack (React / TypeScript / Node.js)

Oslo, Norway • [marcinxmichalik@gmail.com](mailto:marcinxmichalik@gmail.com) • +47 471 421 66 • [LinkedIn](#) • [GitHub](#) • [Google Scholar](#)

Senior full-stack developer with 6+ years building and shipping production web and mobile applications, currently in the financial-services sector at Storebrand. I work end to end across the stack — React/TypeScript front-ends, Node.js/GraphQL back-ends, and cloud/CI-CD — with a strong focus on quality, accessibility, and maintainable code. A former research scientist (PhD), I bring analytical rigour, a structured problem-solving mindset, and clear communication to every team. Hands-on with agentic coding workflows (Claude Code, GitHub Copilot, agent skills, MCP) and LLM APIs to ship faster without sacrificing quality.

## SKILLS

**Languages & Frameworks:** JavaScript, TypeScript, React, React Native, Node.js/Express, GraphQL, REST, HTML, CSS (Tailwind/SASS), Python

**Frontend:** Micro-frontends, accessibility (WCAG), state management, WebSockets, Webpack / Vite / Bun

**Backend & Data:** Node.js, GraphQL, REST APIs, PostgreSQL, MongoDB, data migration, C/C++ for microcontrollers

**Cloud & DevOps:** Docker, Google Cloud Platform (GCP), Git, CI/CD (GitHub / GitLab), monorepos, Unix/Linux

**AI-Assisted Development:** Agentic coding workflows (Claude Code, GitHub Copilot), agent skills & MCP (Model Context Protocol), LLM APIs (Anthropic / OpenAI), prompt & context engineering, integrating AI features into products

**Testing & Methodology:** TDD, Jest / Mocha / Playwright, Agile / Scrum, Jira / Confluence / Monday

**Other:** QA & risk management for medical-device software, CMS management

## EXPERIENCE

### Senior Software Developer — Storebrand

March 2023 – Present

*Lysaker, Norway*

- Develop and maintain customer-facing web applications for one of Norway's largest financial and insurance groups, using React, TypeScript, and a micro-frontend architecture.
- Build accessible, high-quality UI components and collaborate closely with designers, product, and back-end teams within an Agile/Scrum setup.
- Contribute to shared front-end platform and tooling used across multiple product teams.
- Use agentic AI tooling (Claude Code, Copilot, agent skills) and modern testing practices to speed delivery while keeping code reliable and maintainable.

### Front-End Software Developer — Smart Cylinders AS

July 2021 – March 2023

*Oslo, Norway*

- Built and shipped web and mobile front-ends in React and React Native for an IoT/hardware product, integrating with real-time device data over WebSockets and REST/GraphQL APIs.
- Implemented responsive, reusable UI components and improved front-end performance and UX.
- Collaborated across a small cross-functional team, taking features from concept to production.

### Full Stack Software Developer — Yellow Life Science

September 2020 – July 2021

*Oslo, Norway*

- Developed full-stack features across React front-ends and Node.js back-ends with PostgreSQL/MongoDB data layers.
- Worked within QA and risk-management processes for medical-device software.
- Contributed to CI/CD workflows and containerised deployment with Docker.

### Full Stack JavaScript Developer — School of Applied Technology

April 2020 – September 2020

*Stockholm, Sweden*

- Intensive, project-based full-stack JavaScript programme building production-grade applications with modern JS/TS, React, and Node.js.

## Consultant, Life Science Sector — Michalik Consulting

Oslo, Norway

April 2019 – April 2020

- Provided independent consulting in the life-science sector while transitioning into software development.

## Scientist — Oslo University Hospital, Institute for Surgical Research

Oslo, Norway

August 2017 – March 2018

- Research in a clinical / clean-room environment, including work on 3D-printed biomimetic organ prototypes — foundation of a data-driven, evidence-based problem-solving approach.

## EDUCATION

---

### PhD, Protein Evolution — Max Planck Institute for Developmental Biology, Tübingen, Germany

2013 – 2017 (from 2014 at University of Oslo, Dept. of Biosciences, EVOGENE)

### MSc, Biotechnology — Maria Curie-Skłodowska University, Lublin, Poland — 2010 – 2012

### BSc, Biotechnology — Maria Curie-Skłodowska University, Lublin, Poland — 2007 – 2010
